25th June 2009.

New Telephone Directory Service for Mobile Phones.

Members may not be aware that a new mobile phone directory service is now available and will allow access to all mobile numbers on request and possibly other details of every mobile telephone number in the UK.

It is possible to register 'ex-directory' but applicants are required to 'opt out'.

To do this, applicants need to go to www.118800.co.uk click on 'ex-directory' at the top section of the page and follow the instructions from there. It only takes a few minutes but it could prevent possible problems and security implications.
